The 2014 Farm Bill created program choices requiring land owners and producers to make several important decisions regarding their farms.

- The new legislation provides an opportunity to update program yields (formerly called base yields) and to reallocate program acres (base acres) to better reflect recent planting histories.
- Additionally, farmers can elect ARC-Individual, ARC-County, or PLC for their farm.
- This meeting will explain the basics of the program choices and introduce terminology used in the programs.
- If you are unable to attend the Carrollton meeting the following site lists additional meetings to be held in our area.
