There's an old riddle that says five frogs are sitting on a lily pad. One decides to jump off. How many are left?

If your answer is "four", thank your math teacher for your excellent math skills. Unfortunately, this is not a test of your math abilities.

It's a life problem.

The correct answer is "five". Yes, all five are still sitting there on the lily pad.

The one frog only decided to jump but hasn't.

Life is not a spectator sport; it's indeed a contact sport, and there are no practice sessions, and you've been in the game from day one.

As cliché as it seems 'The journey starts with a single step' – not by thinking about taking that step.

Moral: Be the frog who not only decides to jump off the lily pad but actually jumps.

Take those opportunities, face those fears, make those memories. Regret is only for those who say "no" to life's open doors.
